

Documento correr localmente

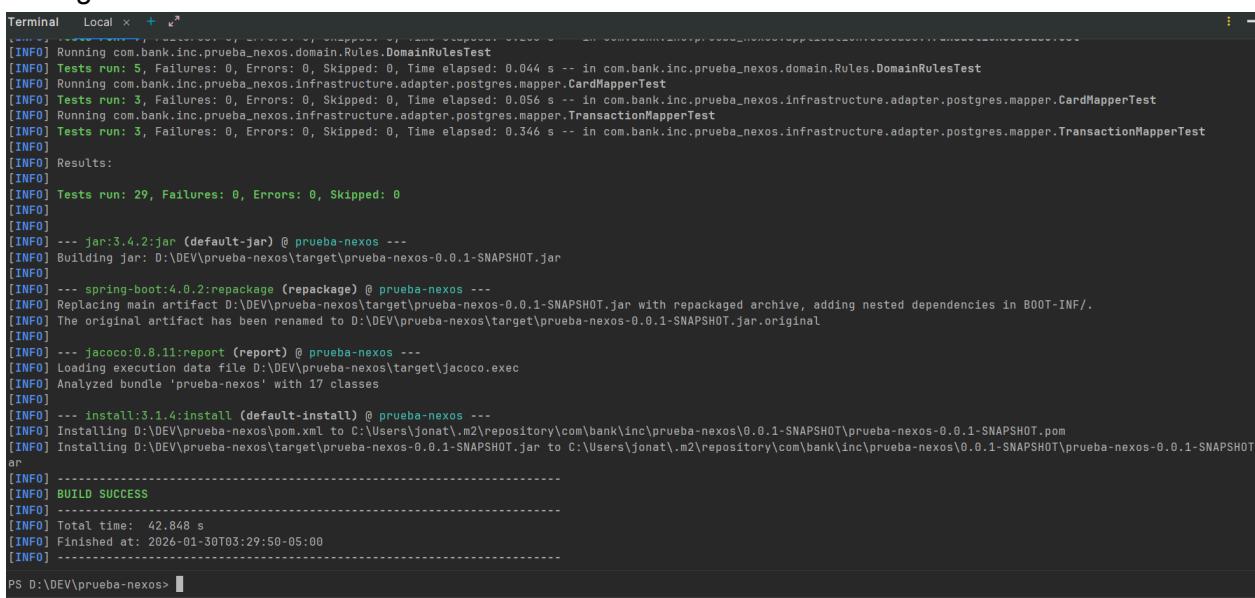

1. Correr el comando mvn clean install para generar el jar

```
Terminal Local x Local (2) x + "Windows PowerShell
Copyright (C) Microsoft Corporation. Todos los derechos reservados.

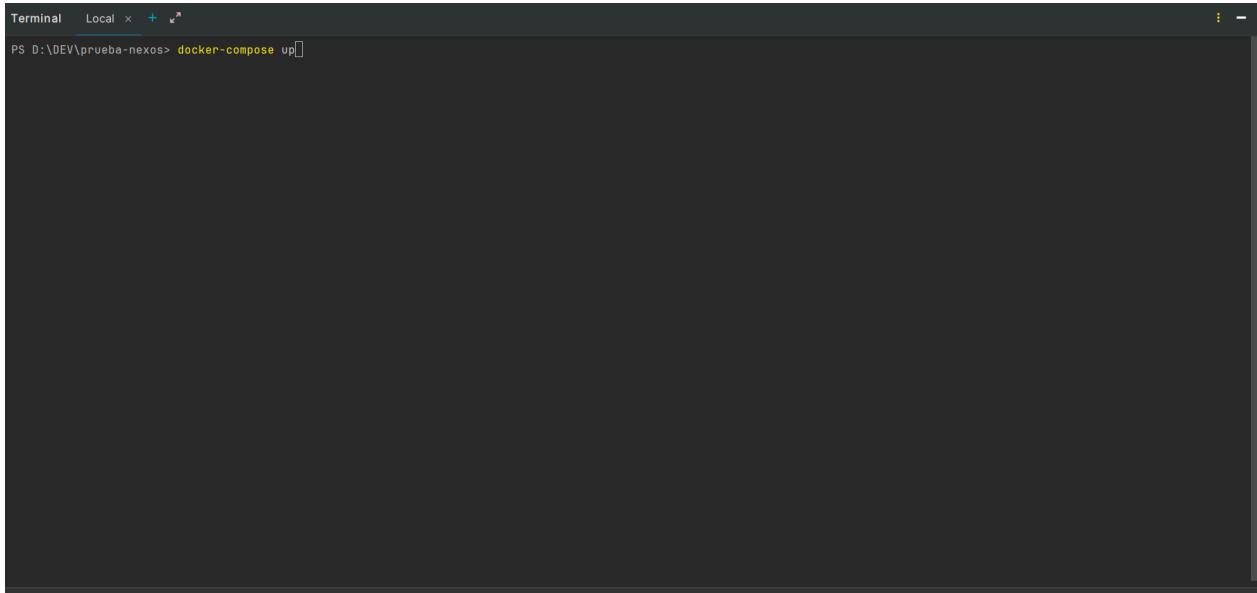

Instale la versión más reciente de PowerShell para obtener nuevas características y mejoras. https://aka.ms/PSWindows
PS D:\DEV\PRUEBA-SETI> mvn clean install []
```

2. Jar generado

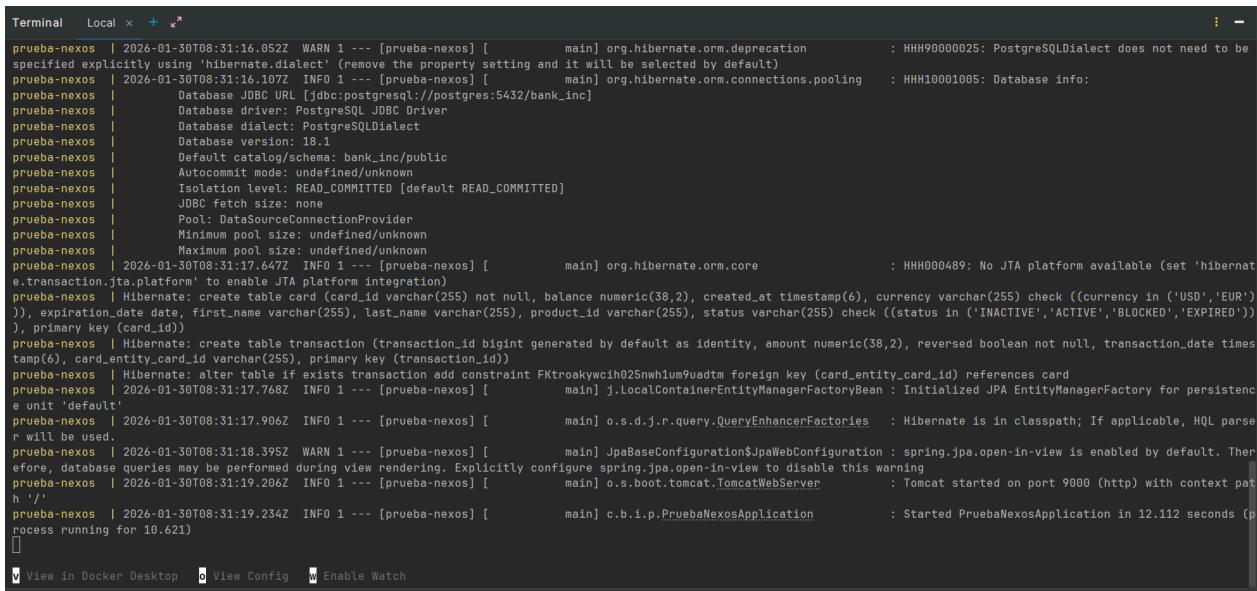

```
Terminal Local x + "Terminal Local x Local (2) x + "Windows PowerShell

5.verificar con el comando de docker ps

```
jonat@DESKTOP-FH1602E MINGW64 /d/DEV/prueba-nexos (main)
$ docker ps
CONTAINER ID   IMAGE     COMMAND          CREATED        STATUS      PORTS          NAMES
ea6a56af8748   nexus:v1  "java -jar app.jar"  54 seconds ago  Up 54 seconds  0.0.0.0:9000->9000/tcp, [::]:9000->9000/tcp  prueba-nexos
f5cbfe4d8f89   postgres   "docker-entrypoint.s..."  54 seconds ago  Up 55 seconds  0.0.0.0:5432->5432/tcp, [::]:5432->5432/tcp  bank_inc

jonat@DESKTOP-FH1602E MINGW64 /d/DEV/prueba-nexos (main)
$
```

6.probar en el local puede usar la colección de postman o por swagger

<http://localhost:9000/swagger-ui/index.html>

The screenshot shows the Swagger UI interface for a REST API. At the top, there's a navigation bar with the Swagger logo, a search bar containing '/v3/api-docs', and a green 'Explore' button. Below the bar, the title 'OpenAPI definition' is displayed with a 'v0' badge and an 'OAS 3.1' badge. A link to 'v3/api-docs' is also present. The main content area is divided into two sections: 'transaction-controller' and 'card-controller'. Under 'transaction-controller', there are three items: a POST method for '/api/transaction/purchase', a POST method for '/api/transaction/anulation', and a GET method for '/api/transaction/{transactionId}'. Each item has a small dropdown arrow icon to its right. Under 'card-controller', there is one item: a POST method for '/api/card/enroll'. This item also has a small dropdown arrow icon to its right. The entire interface is set against a light gray background.
